

## AMENDMENTS

### In the Specification:

Please delete the paragraph beginning on page 7 line 6 and running through page 7 line 16, and replace it with the following:

The temperature altering device 18 is located within cavity 16. The temperature altering device 18 can either be permanently located within cavity 16 or removably located within cavity 16. If the temperature altering device 18 is permanently located within cavity 16, then it can be sown within the fabric, or otherwise included within. If; however, the temperature altering device 18 is removably located within cavity 16, then cavity 16 can be in the form of a pocket, having a securable pocket mouth 22 (figure 3). Pocket mouth 22 can either be on the interior side 4 ~~[[of]]~~ or the exterior side 6 of horse blanket 2. In the preferred embodiment, pocket mouth 22 is located on exterior side 6 of horse blanket 2, thereby allowing for easy placement and removable of temperature altering device 18 while horse blanket 2 is on the horse's body.
